

Local Intelligence.

WOOL YIELD.—We have waited several weeks on a promise from John Marion to furnish some statistics as to the yield of wool in this county, but since he has laid down the pen and become a sheep herder it is difficult to induce him to take it up, even temporarily, and we have to strike somewhat at random. Mr. Carpenter sheared 1,000 sheep and obtained nearly 5,000 pounds of wool, or within a fraction of five pounds to the sheep. Marion sheared some 1,800, which were bought of the same parties and yielded about the same as Carpenter's. He has bought some six or seven hundred since and now has a flock of over 2,000, besides several hundred lambs. Jim O'neal sheared late last Fall and early this Spring, consequently his clip was light compared with what it ought have been, but as he had not received returns from it he could not give the figures. Campbell & Baker also sheared early and the yield was not heavy, though we are informed that their wool is almost as clean as if it had been scoured, and they expect to make up in price what it lacks in weight. There are several other flocks in the county but we have been unable to get any figures as to how they have yielded.

Mr. Otis, of the firm of Cram & Otis, has just arrived with a load of good things. Choice fresh candies, lemons, nuts, choice California cheese, etc., etc.

HURT BY A FALLING TREE.—A young man by the name of S. S. Ball, nephew to our townsman V. A. Stevens, on Tuesday forenoon, while chopping wood for a coal-pit south of town, was very badly injured by a falling tree which struck him a glancing lick on the back part of the head. He was chopping on a log, and his partner was falling a tree; as the tree started to fall the partner swung out to him to run, but he seemed not to heed, when he repeated the warning. This time he did run but in the wrong direction and just in time to meet and receive the falling tree on the head, which stunned him so badly that he was unconscious for about 24 hours, and even now has a very indistinct recollection of how the thing occurred. Dr. McCandless is attending him and we understand regards it as still doubtful how the matter will turn with him. He is able to talk a little, and says he thinks he must have thought his partner was fooling him, as they often did each other, or he should have paid attention to the first warning and saved himself.

We are now prepared to furnish the trade of this market and vicinity with the largest and most complete stock of general merchandise in the Territory.

A young man by the name of White writes from Mohave county to his father at San Bernardino, a cock and bull story about having a fight with the Huachipais, in which they shot one of his toes off, and he made quite a number of the redskins bite the dust with his trusty rifle. The San Bernardino Guardian publishes the adventure in apparent good faith, as if it were really true. Our friends who write us very regularly from Mohave have never heard of this wonderful encounter, and the chances are the young man has been romancing and deceiving his old father. He ought to be spanked.

If you want to buy first-class combs or strained honey, go to

Another rich discovery is reported in Bradshaw district, some two miles from Bradshaw City. J. J. Baxter is the lucky man this time. He has a vein that he calls the Golden Era. It is small, averaging from 11 to 15 inches in width, but is immensely rich in gold for about thirty feet along the lode. Some of the rock worked in a hand mortar yielded \$5 to the pound. Mr. Baxter says he thinks he has a good thing in a small way, but has not confidence enough in its holding out long to go to much expense on it until he has tested it more thoroughly. He wants to see how it holds its own in sinking. We shall know before long whether it is a permanent mine or a mere pocket in the lode.

Another large invoice of crockery and glassware, just received at

VICTORIA MINE.—This mine is situated at Kirkland Valley and belongs to Dr. W. W. Jones, Judge Kelsey and others. When first discovered it was rich in galena and silver, but soon changed to gold in sinking and has been worked to some extent by arrastra until lately, at a depth of thirty feet it has again changed to pure sulphurets of silver without any galena. Dr. Jones is at work now with a force of men and taking out sulphurets in small quantities that will work away up into the thousands. We hope he may probe it until he finds "there's millions in it."

Cram & Otis have just received a fine assortment of boots and shoes which will be sold cheap.

BURT FOSTER, Mr. Case, Will Foster, Henry Lyon and Big George returned last week from their Little Colorado survey, having completed their contract in that direction. We sought to have Will, who is handy with his pen, write an account of their discoveries, explorations, camp incidents, etc., but he pleads business on us, and declares he has no time to spare. One object of especial interest that we should be pleased to publish a description of is a petrified forest thro' which they ran a line.

L. Bashford & Co.'s is the place to buy clothing and gents' furnishing goods.

Charles Beach was in town yesterday, but has flitted away to Ehrenburg again. That man comes as near being everywhere at once as anybody we ever knew. He tells us that Date Creek wants, and ought to have, a P. O., and that it could be provided with one very easily by changing the proposed route from Ehrenburg and making Kirkland Valley the western terminus instead of Wickenburg. This would take in Date Creek and not materially lengthen the route.

Tobacco chewers and smokers will now find something to suit at

ANOTHER FIRE.—Monday night of last week, while George Brower, of Agua Fria Valley, was visiting at a neighbor's his house took fire and burned to the ground, destroying all his personal effects of every kind, together with a large number of chickens that were roosting so near the fire that they could not escape.

Clocks! Clocks! for sale cheap at L. BASHFORD & CO.'S.

Buffum & Co.'s mill left Curtis' saw mill yesterday morning on the log wagons for its destination at the Crook mine. We have not heard what success attended them on the trip, but it is in the hands of experienced teamsters and no fears are entertained.

If you want to purchase groceries and provisions cheap, go to

ASHER & Co., have received goods during the week as follows: By Castaneda's train, 1,706 pounds; Awen's train, 1,668; Reeb's train, 4,853.

DEATH OF GEO. S. COLEMAN.—In January last George S. Coleman and W. C. Dawes arrived here from Montana via Salt Lake City. Dawes established a store at the Crook mine, and Coleman, being in failing health, went to San Bernardino, California, in hopes to find some relief, but without success. Finally, convinced that he could live but a short time, his disease having developed into unmistakable consumption, he returned here to his friend Dawes, and only survived about 10 days after his arrival, when he died at 3 o'clock on the morning of the 24th inst. Every attention and care, both medical and otherwise, was bestowed upon him, but it was beyond the power of human effort to do him any good except to smooth a dying pillow and watch his life ebb away. Mr. Dawes remained constantly by his bedside from the time of his return until he died, and has handed us for examination three certificates which show that George S. Coleman was admitted to the bar as a practicing lawyer in the Commonwealth of Virginia, Aug. 15th, 1868, again May 12th, 1869, to the Supreme Court of the State of New York, and on the 19th of August, 1871, to the Supreme Court of Montana. Mr. Coleman was a native of Ringo, Pittsylvania County, Virginia, apparently about 30 years of age, of most exemplary character and much respected by all who knew him. His remains were buried on Wednesday at 2 P. M. in the Masonic Cemetery with the honors of the Order, of which he was a member.

THE RACES.—On Saturday last the opening Race of the Prescott Jockey Club took place on their new track. All available horses and vehicles were brought into requisition for the occasion, and a large concourse of people was present. At 1:30 P. M. the judges called the rider's up for the Citizens' Purse Race (single dash of a mile) when "Bay Jim," "Blaze," "Mike Schuyler" and "Yellow Jacket" appeared under the stand, all looking in fine trim. A good start was obtained, and after the first half-mile "Bay Jim" took the lead, which he held on the home stretch, and was declared the winning horse, with "Yellow Jacket" 2d, "Blaze" 3d, and "Mike Schuyler" 4th. Time: 2 min. 7 1/2 sec. The Half-mile Race was next in order (placé race). The closing Race was a Sweepstakes of \$40—one mile dash—four horses started: "Dikey" entered by H. Herbert, winning the race, with "Yellow Jacket" 2d, "White Stockings" 3d, and "Black Jerry" 4th. Time: 2 m. 2 sec. The arrangements on the track, and the fair and impartial hearing of the Officers of the Club, met with universal satisfaction.

HAVE WE A BENDER AMONG US.—Uncle Billy, who everybody knows, desires us to publish the following letter which he and his friends consider a huge joke on the old man. C. Y. Shelton and Uncle Billy have been lawing for a long time about some mining property on Lynx Creek, and it seems Shelton had heard some bad stories about Uncle Billy's former life in Missouri, and wrote to the sheriff of Osage county, to find out about it. Pointing being as well-known there as here, of course had friends there to whom the sheriff handed the letter, and they sent it out to him. Here is the letter:

PRESCOTT, ARIZONA TERRITORY, December 29, 1874. MR. SHERIFF: Sir—I wrote you some months ago to know if Wm. Pointer had ever killed a man and fled from his country. About 25 or 30 years ago he followed railing on the Osage river. His wife has been dead about two years. He is quite old himself. If he is a bad character he can be found here. Please answer. Address, C. Y. SHELTON, Prescott, Arizona Territory.

Go to L. BASHFORD & CO.'s for the latest style in Hats.

A widow lady, residing in Cincinnati, desires information concerning Edwin Wm. Lundy, who was once a soldier in the 5th U. S. C., and whom she supposes to have been her son. A report has reached her that he was killed by Indians in Arizona some two years ago, and that the circumstances of his death were published in the MINER. We have been unable to find it in our files, and respectfully ask any one who remembers and facts concerning him to communicate the same to this office, or to Thos. Willem, A. A. A. Gen., Fort Whipple.

A fine assortment of children's dolls of all kinds and sizes at

PORCHES appear to be the order of the day in our neighborhood. J. W. Davis has built a new porch to his residence across the street; Dan Hatz, next door South of us, has built a new porch over his lake oven and is building one in front of his restaurant. John Raible, our next neighbor on the North, has built a new porch over his lager beer boiler and put a new roof on the porch in front of his saloon, and not to be an odd fellow among our neighbors, we have had a shed built in front of the MINER office.

An elegant assortment of ladies' misses' and children's in-Scotch serge and kid foxed button and laced boots, now on hand at

We are glad to learn that Mr. C. W. Gearhart agent of the Missouri Valley Life Insurance Co. is meeting with success here. In older communities life insurance stands deservedly high, but introducing it in a new country is slow work. Mr. Gearhart has been requested by many of our citizens to procure an agency for some Fire Insurance company, which he is now endeavoring to do, and we hope he will succeed.

Mr. Otis, of Cram & Otis, having returned from Los Angeles with a load consisting of a little of everything, they now display a very attractive stock of nick-nacks, bon-mots,

Toy dolls and other baby things, Whips, whistles, candies, bells, and bows, Fans, pomades and furbelows.

Ladies' hand sewed French and American kid and glove top button boots, just received at

Mr. H. H. H. to-morrow afternoon, on the Plaza, by the Eighth Infantry Band:

1. March, Friedenkunze—Faust.
2. Grand Concert Medley—Downing.
3. Black Crook—Operti.
4. Potpourri from opera. Bellisario—Donizetti.
5. Ascension Valse—Strauss.
6. Blise Polka—Purlow.

Charley Livermore, an old-time California, Nevada and Idaho stage man, came in last week from Sandy where he has been mining.

Mr. Hemphill, a No. 1 blacksmith from Boise City, came all the way alone via Salt Lake City, St. George, St. Thomas, etc., and is now hammering iron in Prescott.

We observe a new house going up on Cal Jackson's lot on Granite street, below the Gurley street crossing of the Creek.

Prescott was full of shingle-makers on Sunday last. J. M. Sanford appears to be a sort of Ring-leader among them, and Deroche is his lieutenant.

ANOTHER ATTORNEY.—Wm. D. Southworth, late of the law firm of W. G. & M. M. Brien, Nashville, Tennessee, arrived here last week and intends to make Prescott his future home. We have found him a very intelligent young gentleman and should judge he had in him the right kind of metal to battle successfully with the world, and in case he should come in contact with a sharp corner now and then, that his temper would stand the shock and not fly all to pieces from being too high, nor bend too easily on the other extreme. Arizona wants men who will neither bend nor break, but resist the strokes of adversity when they come, and are equally at home in prosperity. We believe Mr. Southworth possesses the necessary elements of character to take the world as he finds it and hoe his row with the rest. We bespeak for him a fair chance and predict success.

IMMIGRANTS COMING.—Our friend, Fred Montalvin, who has been out on the Santa Fe route, writes from Arnold's ranch, June 20th, that two trains of immigrants—one from New Mexico, Texas and Missouri, the other from Kansas—crossed the Mogollons on the 18th, and two wagons with families were on the Little Colorado, bound for Prescott. A detachment of the 6th Cavalry is expected along soon, having left Santa Fe on the 10th.

NEW ADVERTISEMENTS.—Wm. M. Buffum has changed his "ad." consequent on the receipt of his Spring and Summer stock. His store is crowded with all kinds of staple and fancy goods, clothing, etc., and he expresses a determination not to be under-sold.

James T. McKay advertises his harness shop next door to Ben Weaver's. Such an establishment was a much needed addition to the business of Prescott. Hope he may do well.

HORSE FELL ON HIM.—A Mexican, whose name we did not learn, celebrated San Juan's Day so enthusiastically yesterday that he came near losing his life at the corner of Goodwin and Montezuma streets, by his horse falling on him while racing with a friend, and attempting to turn the corner too quick.

ARRIVALS AND DEPARTURES BY C. & A. STAGE CO.—Arrivals: June 21st—H. M. Hay, San Bernardino; June 24th—Thos. Moore, Phoenix; Adam Masthonge, Cottonwoods; R. S. Thomas, Wickenburg.

Departures: June 19th—Daniel Cannon, Ed. F. Bowers and Ter. prisoner—Hardyville.

At a meeting of the Finance Committee of the Prescott Jockey Club, held on Wednesday evening last, it was resolved to fix a Race on the 3d of July next, as appears in advertisement column.

L. Bashford & Co. come before the public with another array of small ads, in one of which they are prepared to compete with anybody anywhere for Arizona trade.

Read J. M. Delme's offer of reward, Davis & Sims's dissolution notice, and Recorder Wickers' Notice of Equalization Meeting.

Goods received during the week at Bashford & Co.'s, by Castaneda's and Joaquin's teams, 4,507 pounds.

TO OIL A BELT.—The mode of oiling a belt is to take it from the pulleys and immerse it in a warm solution of tallow and oil; after allowing it to remain a few moments the belt should be immersed in water heated to 200° Fahr., and instantly removed. This will drive the oil and tallow all in, and at the same time properly temper the leather.
